Description of Project and LEA's Preliminary Determination

The Big Bear Transfer Station is located on the southwest portion of the Big Bear Sanitary Landfill site. The facility is surrounded by National Forest Land in an unincorporated area of San Bernardino County. The site is approximately 2.5 miles from the city of Big Bear Lake and approximately 1.5 miles north of Baldwin Lake and State Highway 18. On November 6, 2008 the LEA accepted for review, the permit application package from Sheep Creek Transfer Station requesting to change the self-monitoring reporting period, (LEA Conditions 4, 5 and 6) from 15 days to 30 days. No other changes to the SWFP are under consideration at this time.

The LEA finds that the proposed change is a non-material change pursuant to Title 27 §21665 and qualifies as a permit modification. The LEA's preliminary determination is that the proposed permit modification be approved.

The decision to approve or deny the SWFP modification will be made by the LEA within 120 days of the date the application was deemed complete as required by State statute, and will be submitted to the California Integrated Waste Management Board (CIWMB) for concurrence.

Where to get additional information

A copy of the modified permit application is available for public review by appointment in the LEA office located at 385 N. Arrowhead Ave. 2nd Floor, San Bernardino, CA 92415.
